

The screenshot displays the SAS Enterprise Guide interface. The main window, titled "SAS Enterprise Guide - LocalFiles\D:\Documents and Settings\koehlere\Desktop\ Test VU Project 2.egg", shows a "Process Flow" diagram. The flow starts with a "MOCK_DATA" task, which branches into two paths: "Query for MOCK_DATA" and "Query1 for MOCK_DATA". The first path continues through "QUERY_SUR..." to "Proportio... Hazards" and then to "HTML - Proportio...". The second path continues through "QUERY_DEM..." to "Summary Tables" and then to "HTML - Summary T...".

On the right side, a "Task List" window is open, showing a list of tasks categorized by type. The categories include:

- Factor Analysis
- Cluster Analysis
- Discriminant Analysis
- Survival Analysis**
 - Life Tables
 - Proportional Hazards
- Capability**
 - Histograms
 - Probability Plots
 - P-P Plots
 - Q-Q Plots
 - CDF Plots
- Control Charts**
 - Mean and Range Chart
 - Mean and Standard Deviation Chart
 - Individual Measurements Chart
 - Box Chart
 - p Chart
 - np Chart

The status bar at the bottom indicates the user is logged in as "koehlere as Elizabeth Koehler, connected to mminas2.ssg.org.au:8561/Foundation". The task status is "Ready".
